

You're invited!

Join us for a virtual  
**Texas Grass Gathering**  
Sharing Knowledge. Celebrating Plants.

Wednesday, September 9, 2020  
Noon - 2:00 pm (CST)

This free, informal, and *FUN* event will help you learn more about:

- How to identify grasses to genera
- Identifying look-alikes such as Kleingrass, Switchgrass, Johnsongrass, and Guinea grass
- The most used forage grasses in Texas
- Identifying King Ranch, Kleberg, and Angleton bluestems
- A new native seed collector tool for plantings
- Bluestems in Texas and the introduction of the newly published field guide, "*Bluestem Grasses in Texas*"

To RSVP, contact Dr. Megan Clayton,  
Associate Professor and Extension Range  
Specialist at [megan.clayton@ag.tamu.edu](mailto:megan.clayton@ag.tamu.edu)

Great Door  
Prizes!
