### How Alcohol and Drugs Affect the Brain

*Please answer the following questions in complete sentences:*

1. What year was the “Major” breakthrough when brain scans showed that addiction, like other diseases, affected tissue function, particularly in two key parts of the brain – the limbic and the cortex?
  2. In your own words, define alcohol or drug addiction?
  3. Of the two key parts of the brain affected by addiction, name the part of the brain that is for survival hardwiring?
  4. Name the part of the brain that is for decision making?
  5. What protective factors do you currently have or would like to have in your life?
